

RVE / Supplementary heater for smoke detectors

A supplementary heater for smoke detectors for cold environments.
Requires a separate voltage supply and room thermostat.

- Used in spaces where the temperature drops below -10°C and moisture (vapor) is present, and feel need for an additional heater
- Install the thermostat in the same space with the detectors (optional)
- Separate cabling
- PVS-60/24 transformer, 230/24 VAC (optional)
- The thermostat (for example, KRT-1901) feeds the transformer, which feeds the RVE heaters.

SKU	8000281
Product series	Firescape

Technical data

Operating current, normal (mA)	70
Width (mm)	103
Height (mm)	127
Length (Depth) (mm)	65
Net weight (kg)	0.416
Colour	White
