

PRODUCT CARD

PRODEX-EIA / Disconnection timer

The disconnection timer can be used to disconnect smoke detectors. You can use, for example, a Flashni-24 VDC to signal the expiration of the disconnection time.

- A disconnection timer for a smoke detector
- Disconnection time: 30 min 12 h (in 10 minute steps)
- Internal buzzer
- Connect to the panel with a CHQ-DIM (SCI) module (optional)
- When you want to disconnect smoke detection from multi-criteria detectors, e.g. during pyrotechnic shows.

SKU	8001247
Product series	Firescape

Technical data

Operating voltage (VDC)	8-40	Length (Depth) (mm)	28
Width (mm)	125	Net weight (kg)	0.694
Height (mm)	150	Colour	White
