

VXI-AM / Outdoor PIR detector with anti-masking

A passive infrared detector with anti-masking for outdoor installations. The detector is used outdoors in close vicinity of the buildings to sound an alarm as early as possible in the event of a break-in.

- Detection range 12 x 12 m
- With two sensors
- An opening or a closing contact
- Versatile control over the detection area

SKU	8002517
Product series	VXI

Technical data

Coverage	12 x 12 m	Operating temperature	-30°C...+60°C
	2 x PIR	Width (mm)	71
	Yes	Height (mm)	182
Alarm output	NC / NO, 0.1 A 28 V DC	Length (Depth) (mm)	65
Operating voltage (VDC)	9.5 - 18	Net weight (kg)	0.514
Operating current, max (mA)	24	Colour	White
Ingress protection (IP)	IP55
