PRODEX-RM/3 / Parallel LED indicator

To be used if the sensor does not include an indicator light or if the sensor is installed in a location where its own indicator light is not visible. The parallel LED indicator can also be used to signal a fire alarm at the panel by controlling the LED indicator directly from the controlled voltage output or through a voltage relay.

- A supplementary white indicator with a red LED.
- When you want to indicate the location of the sensor if it is out of view.

SKU	8003027
Product series	Firescape

Technical data

Detector type	Point detector	Length (Depth) (mm)	20
Operating voltage (VDC)	5-40	Net weight (kg)	0.04
Width (mm)	74	Colour	White
Height (mm)	74		

CE
