

VD-500 / Seismic detector

The VD-500 is a seismic detector for protecting firearm cabinets, various machines and vaults. The versatile control options ensure high reliability in all conditions.

- Suitable for safes, overnight deposit boxes, ATMs and vaults
- Compliant with the EN-50131 GRADE 3 requirements

SKU	8003452
Product series	VD

Technical data

Coverage	5 m (concrete/steel)	Width (mm)	88
	Seismic detector	Height (mm)	23
Operating voltage (VDC)	8-30 VDC	Length (Depth) (mm)	41
Operating current, normal (mA)	7.5	Net weight (kg)	0.236
Operating temperature	Operating temperature: -40 ... +70 °C	Colour	Grey
