

BXS-ST / Outdoor curtain motion detector 2 x 12 m

The BX Shield is a series of curtain outdoor motion sensors with up to 12m detection range on each side. Ideal to detect people in the immediate boundary of your home or office building, the outdoor curtain detectors feature four PIRs, two on each side. The left and right detection area can be set up completely independently from each other.

- Detection range 2 x 12 m, curtain
- 4 x PIR sensors
- Mounting height 0.8 - 1.2 m
- IP55 casing
