

GD470-6 / Gluable glass break detector

A very reliable glass break detector which is glued to the glass surface and will react only when the glass breaks.

- 2 m detection radius
- For all types of glass, detects hits and cuts
- Relay output, NC

SKU	8005001
Product series	GD

Technical data

Coverage	2 m	Width (mm)	26
Operating voltage (VDC)	8 - 15	Height (mm)	26
Operating current, normal (mA)	4	Length (Depth) (mm)	11
Ingress protection (IP)	IP67	Net weight (kg)	0.151
Operating temperature	-40 ... +50C	Colour	White
